

### Dear Reader,

The teachers and students have all worked hard to bring together this edition of The Messenger to you.

The achievements made by the school in these few years are testimony to the vision of the school.

These are a clear indicator of what the school is heading for.

I am sure that even sky is not the limit for the talented students of our school.

Our school is like a family where we learn, grow and mature together as a family.

At our school the education being provided to students is both qualitative and imperative.

Though class room education is considered must, it is coupled in a well balanced way with outdoor activities and sports. Similarly, equal value is given to several social and positive qualities such as discipline, empathy, punctuality and honesty. Here at Tula's, teachers perform the role of Gurus as envisaged in our Indian scripts.

Teachers look up to students as their role models. Students watch their teachers and emulate them.

I am sure that this spirit of oneness will make this school a leader in education.

The students passing out from this institution will be valuable assets.

Read on The Messenger to know about this quarter's happenings of the school.
