Dear students,

Tula's International School is immensely proud of our welcoming school culture.

Our school emphasizes on respect, trust and integrity as its core value.

Tula's offers a sense of belonging to a tightly knit and exclusive community.

The behavioural expectations have been designed to build a strong character.

We believe that instilling positive values helps students in becoming world class citizens.

For us, a world class citizen is one who is high on every virtue be it honesty, responsibility, punctuality or mastering the art of effective and timely decision making.

What we know and understand is that adolescences do better and are happier when they are presented with consistency and clear expectations. This is the environment we strive to provide for our students. Thank you for your continued support in this effort.

The inside pages will give you an insight into our efforts in the direction.

Flip the pages to read about what's happening in our school and what Tulaites think and feel about various issues.

In Conversation with the Principal Ms. Shalini Sharma

With a rich experience of more than 20 years Ms. Shalini Sharma started her career as an author. She has served in different schools across the country. During this time she was appointed as member of an inspection committee and also as a mentor of an inspection committee for inspection of CBSE. She was also the chairperson of CBSE Sahodaya School Complex. Recognizing her hard work and service to the society she got an appreciation letter from the Ministry of HRD Government India for the commendable academic performance of class XII students in the year 2015-16.

Q. What has been your greatest contribution to the schools you have worked in?

The greatest contribution to the school I have worked in was shaping a vision of academics success for all students and also creating a climate hospitable of education. Besides creating academic environment, I cultivated leadership qualities in my staff as well as students. With my strong counseling skills I motivated my students.

Q. Outline the role you expect parents to play in a school.

Parent's duty is to guide their children time to time and take regular feedback about their children. Parents should also attend Parents Teachers Meeting on regular basis to make sure about the progress of their ward by concerned teacher.

Q. What one advice would you give to a new teacher which will help him/her become an effective mentor?

The one advice I would like to give to a new teacher is that to have a commanding nature. Commanding nature means one should have full command on his/her subject.

Q. What are the top 3 areas you wish to concentrate on as a new principal?

Being a new principal, the top 3 areas I would like to concentrate will be academics, discipline, and student welfare.

Q. What traits in a student are most unacceptable to you?

The only trait in a student which is unacceptable to me is he/she becoming aggressive. When they become aggressive they will become impatient and that will lead to indiscipline.

Q. What parameters according to you make a student successful? What are your assessment tools?

Successful student exhibit a combination of successful attitude and behavior as well as intellectual capacity. To me that student is successful who has made his/her studies first priority. My assessments are their punctuality, how honestly, they work and how much they are focused.

Q. If you would have not been an educationist, what role would we have seen you in?

If I would have been not an educationist, then you would have seen me as a Journalist.

Q. Who is your role model?

One of the famous Indian social activist Medha Patkar, is my role model.

Q. What technology resources are available for students at Tula's?

Students at Tula's are getting Internet facility. They are taught with smart class where learning becomes fun.

Q. How have students changed over the time?

Students have changed a lot. In my times we don't have technology and now students are techno savvy. Earlier there was learning with books only now they are much more interested in practical knowledge.

Anshu Suman PGT Mathematics

Mr. Anshu Suman has been in the educational field for last 5 years. He has pursued his B.Tech (EC) and M.Tech (D.C.) from RGPV, Bhopal. He has shared his extensive knowledge with Gravity Classes, Engineering Vision Classes & Takshila Academy Delhi. He is known as a

Q: How has your experience been with Tula's International School?

Anshu: I am grateful to Tula's International School. Tula's students are very hard working. In years to come, they will be recognized worldwide not only for their high academic standards and achievements, but also for what they can offer to their communities and society as a whole. My desire is that my young students become loving and caring human beings with integrity and passion for the wellbeing of mankind.

Q: What are the common mistakes students make while attempting board paper of class 12?

Anshu: Some students do not have a clear concept of mathematics. They do not know how to solve mathematical problems. They do not read the question in a proper way and thus do not know how to manage their time in examination. Some common mistakes are: -

- Copying incorrect data.
- Targeting formula applications.

Q: Which are the scoring areas every student should attempt?

Anshu: Firstly, they should attempt subjects which they are well versed with. But with the exam point of view there is weightage from top to bottom: -

1. Calculus
2. Algebra
3. Probability
4. Vector – 3D
5. L-P

Q: What is the mantra for studying maths?

Anshu: There are some mantras for studying maths: -

1. Plan well for solving a mathematical problem
2. Make a list of all maths formula & method for solving mathematical problems.
3. Use maximum time in self- practice.
4. Try to solve CBSE practice papers & sample papers within 3 hours.

Q: How can parents help students perform better?

Anshu: All parents should communicate well with children and identify their weaknesses. They should motivate their children. They should set rules and follow their routine. Parents should set up proper time- table for their studying and sleeping etc.

Rajesh Kumar Singh PGT Physics

With 7 years of rich experience, he is an enthusiastic and dedicated teacher for classes 11th, 12th and IIT- JEE, NEET. He is committed to safe guarding and promoting the education and wellbeing of children. He has worked with several educational institutes like Focus IIT Academy, Narayan Academy, Sri Chaitanya Academy & Takshila Academy Delhi. He is a B. Tech (CS) & M. Tech, and is also pursuing PhD from T.M.B.U. Bihar.

Q: How has your experience at Tula's International school been?

Rajesh: My work life at Tula's International School is well balanced. The school offers world class studying culture,

infrastructure and environment.

The school has lovely and experienced professionals while students are creative and innovative. According to me India needs such world class facility schools, where children can fulfill their dreams.

In Conversation with the Faculty

Q. Give 5 tips to your students to perform well in Physics paper?

Rajesh: Five important tips for Physics students to perform well:

1. Preparation must start according to weightage of the chapters.
Eg: - Optics (14 marks weightage)
Electric Dynamics- Electrostatics, current, Magnetic, effects of current & Magnetism (15 Marks)
2. Solve the last 10 years' question papers of the best CBSE schools
3. Preparation of basic equation and derivation of laws. Memorize the basic formulas.
4. Take help from teachers, seniors and reference book etc.
Students must enjoy the subject when they are learning. Scoring marks is not difficult if you study with a positive attitude.

Q. How should a teacher- student relationship be in today's time?

Rajesh: It is very important for both, teacher and student to have a healthy relationship in order to carry out the teaching process smoothly. If the teacher student relationship is productive then it

will reflect in studies and confidence of the students. Now days the relation between the teacher and student must be in the form of mentors. Students should feel confident to speak their ideas, problem etc.

Q. A message for the parents whose children are going to appear in board exams

Rajesh: Parents should not enforce any pressure of studies on their children. You should not compare your child with others. Parents should spend time during meals with their son/daughter. They should motivate them in all circumstances.

Q. Which are the scoring topics in Class Twelfth Physics Syllabi?

Rajesh: Scoring topics in 10+2 physics: -

- A. Optics (Wave & ray)
- B. Current & Electrostatics
- C. Important Laws with the derivations.

Surjit Kumar PGT Chemistry

After completion of his B.Tech from IIT, Surjit Kumar got a government job but he soon quit it due to dissatisfaction. He has worked with several institutes like Resonance (Kota), Career Point (Kota) and Aakash Institute (Patna).

Q. What is your aim in life?

Surjit: My aim is to educate people in a positive manner so that they can serve the nation better.

Q. Why did you chose to teach at Tula's Institute?

Surjit: Tula's Institute focuses on all round development of children. Here students cultivate their own desires and dreams.

Q. Which are the difficult topics in Chemistry one requires lot of effort in?

Surjit: As such there is no difficult topic in Chemistry but 'P' block and 'd & f' block has more weightage so; one can should pay more attention.

Q. What tips would you give your students to perform better in Chemistry exam?

Surjit: Actually, chemistry is a scoring subject so students should keep following things in their mind while writing answers:

- a) Do not write unnecessary things. Write exactly what you are asked.
- b) Wherever equation is required write specially answering inorganic and organic questions.

Q. What Challenges do students face while preparing for Chemistry paper and how can they overcome it?

Surjit: While preparing for chemistry, students face problem in organic reaction synthesis. If these reaction and synthesis are prepared in flow chart and revised, then they would be better in organic reactions as well.
